

CANNONSGATE ARCHITECTURAL REVIEW
SCHEMATIC REVIEW REQUEST

The CARC will provide the optional Schematic Design (SD) Review. However, it is not included in the \$1500 Architecture Review Fee but is available for a separate fee of \$450.00. This review is optional but highly recommended for Lot owners, who are planning to occupy the home after construction. Lot owners requesting more than one SD Review may re-submit with the fee or may contract with the ARC Architect for design consultation services at \$75/half hour. Once the HOA has verified required payments, you will be emailed instructions for submittal.

Email this form and any required fees to:
